

Board Meeting
April 17, 2025
Agenda Item A.2.1
Project D 2025.006 - DVP
Additional Representation

To the owners of 168 Saliken Drive,

The owners of 162 Saliken Dr, Wes and Rosie Thompson, are applying for a variance for two concrete walls that frame the driveway. The variance requested is a height extension at the intersection of the house and wall to hold back the required back fill to finish constructing the driveway.

These walls can be seen in the attached drawings, on the North end of the property.

As owners of 168 Saliken Drive, by signing this document signifies your support in this matter, taking a stance that you are not opposed to the increased height for walls that frame the driveway.
